PVC & TFL DOORS

PVC (Thermofoil)

Engineered for durability and consistency, PVC doors are produced by vacuum-pressing a vinyl layer onto an MDF core. The non-porous surface is easy to maintain and resists everyday wear. Offered in a classic white with a smooth, uniform finish, PVC provides a practical and dependable solution for cabinetry with strong value

TFL (Thermally Fused Laminate)

Durable, versatile, and refined. Formed by fusing melamine-impregnated paper to MDF or particleboard under heat and pressure, TFL resists scratches, dents, and stains. Offered in a wide range of colours and finishes—from wood grain to matte and high gloss—it provides a practical, environmentally conscious solution for cabinetry and interiors
